Argentina Eclipse 2020

*Come Explore with The Planetary Society! December 8-19, 2020
with optional pre-trips to Peru & Machu Picchu or Easter Island, Dec 2-8, 2020*

Dear Travelers:

We invite you to join our Argentina Total Solar Eclipse Adventure, **December 8-19, 2020**, with optional pre-trips to **Easter Island** or **Peru & Machu Picchu**.

Join us and explore the magnificence of Argentina, from the premiere city of Buenos Aires and historic La Plata to San Martín de los Andes, and the thundering wonder of Iguazú Falls.

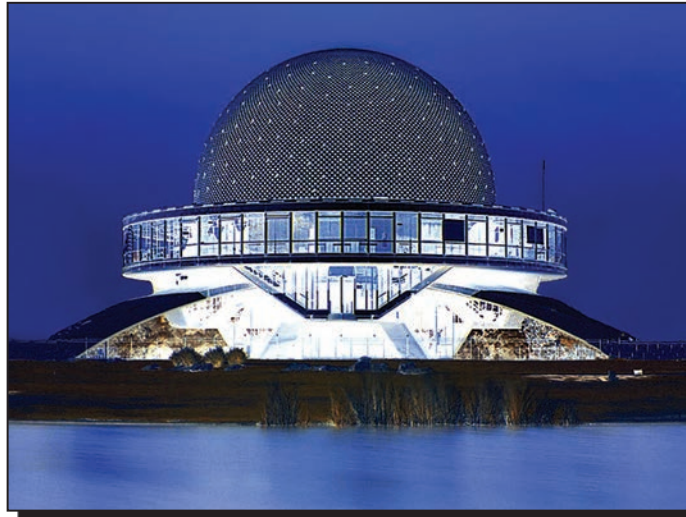

We will see the **Total Solar Eclipse** just north of San Martín de los Andes on **December 14, 2020**.

In Buenos Aires, we will explore the city and have a special visit to the **Galileo Galilei Planetarium** in the Parque Tres de Febrero. The Planetario (as it is known) looks like a UFO, and also has a collection of meteorites from the north of Argentina. We'll see the many displays at the Planetario, followed by an introduction to the southern night skies and discussion of the **2020 Total Solar Eclipse**.

At La Plata, we will visit the superb **Natural History Museum** which is the outgrowth of Francisco Moreno's collection of anthropological, fossil, and bone findings in the 1860's. At the entrance, we will be greeted by two statues of sabre-tooth cats, which were native to the **Pampas of Argentina**. Inside there are vast collections including dinosaur fossils from the Pampas.

Our flight to **San Martín de los Andes** will take us over the immense Pampas to this charming resort town nestled in the Andes.

We will discover the renowned **Argentine Lake Country** as we journey to **Huechulafquen Lake** and **Lanín Volcano**, including a boat trip on the lake or a hike, plus a barbecue.

Options await you in San Martín de los Andes including kayaking, biking, birdwatching, and star gazing.

A highlight of the trip will be the **Total Solar Eclipse** on

December 14, 2020. We will travel north of San Martín de los Andes to watch the Eclipse and then have a celebratory dinner.

Our adventure will continue as we fly to **Iguazú Falls National Park** for three nights at the spectacular La Cantera Jungle Lodge, and see this utterly magnificent waterfall and park which has a profusion of tropical birdlife.

We will travel with Betchart South America expert **Dr. Tom Love** and astronomer **Dr. Tyler Nordgren**, popular leaders of our Chile Total Solar Eclipse trip in 2019.

We hope you will join us for this remarkable adventure and to see the 2020 Total Solar Eclipse!
